Art 4 Human Rights Seasonal Crowdfunding Campaign

The Global Day of Giving kicks off a season of togetherness and giving, this is why we are launching our campaign on this particular period. We invite you to support our Art 4 Human Rights seasonal campaign through donations and a with shared hope for new beginnings.

Art can only flourish in an atmosphere of freedom from fear, violence and repression. Democratic societies based on **human rights** provide the best institutional framework in which arts can thrive and artists are protected against repression and persecution.

At the same time, the **universal language of the arts**, which attracts and empowers human beings around the globe more than any other means of communication, is the most powerful and joyful medium to promote the universal values of human rights. Yet, human rights and democracy are under stress.

A new year is approaching in quite difficult times due to the COVID-19 emergency and where **online activities** are essential to remain united.

By supporting our crowdfunding campaign, you will help us organise the Global Campus of Human Rights #Art4HumanRights seasonal online activities for 2021 and give the opportunity of expression to artists/activists and the members of our vast academic network.

Help us to raise the voices of our community of art creators: igg.me/at/art4humanrights

"For me, it is very important that art enters reality, physically. When I create a drawing, and afterwards I see someone holding it in their hands and I realise that that drawing is linked to them... only then I have achieved my goal. To see my illustrations at manifestations, or being used by activists everywhere in the world, this means that my art is right. It goes beyond the artistic sphere, entering people's everyday life, a kind of art which makes them think and act".

Gianluca Costantini, Italian artist and activist.

The Fundraising Office of the Global Campus of Human Rights is organising this crowdfunding appeal for the year 2021.

Stay tuned for more updates in the "Campaigns" section of our seasonal digital Global Campus of Human Rights Magazine. You will read about our latest News, Events and activities with our local and international unique community of donors, partners and friends.

We share with many organisations the willingness to support the implementation of the 2030 UN Agenda, including [Sustainable Development Goal 4](#) which aims to "ensure inclusive and equitable quality education and promote lifelong learning opportunities for all".
