Field Trip to Kosovo

Coinciding with the completion of the intensive negotiations of the Stabilisation and Association Agreement (SAA) with Kosovo and the Kosovo's European integration path, the E.MA students participate, from 13 till 20 January 2013, in a field trip in Kosovo to discuss human rights issues in post-conflict.

Kosovo is facing numerous challenges such as the judicial independence, limited results in the fight against organised crime and corruption. For this reason, students will meet members of international, nationals and local human rights institutions to give them some very practice-oriented insight into the daily human rights work.
