MOOC on Citizenship and Human Rights Education for Change

Millions of students choose distance-learning education each year. The [Global Campus of Human Rights](#) is also active in this area with its own [MOOCs](#) devoted to human rights issues that are either topical or underrepresented in the educational offer that is currently available online. More recently, we have also developed collaborative initiatives with other organisations or institutions that share the same vision around

the power of online education. It is in this light, that we have been selected to design and implement a new MOOC on Citizenship and Human Rights Education for Change. The course is part of the [EU CONVINC](#) (EU Common Values Inclusive Education) Project run by [European Trade Union Committee for Education \(ETUCE\)](#), [European Federation of Education Employers \(EFEE\)](#), and [European School Heads Association \(ESHA\)](#) and co-funded by the Erasmus Programme of the European Union.
