Prof. Fischer lecturing in Venice, 17-18 September 2012

What an excellent opportunity to start the E.MA academic year 2012/2013 with two days of Introductory Classes by [Prof. Dr. Horst Fischer, EIUC President](#) and E.MA National Director of the Ruhr-University Bochum.

The lectures on the topic of **Human Rights and Democratisation Challenges** give immediately the sense and power of the professional career that this new generation of Masterini will start in the future thanks to the knowledge and practical skills they will gain during the European Master's Programme in Human Rights and Democratisation organised by EIUC.

After an explanation of the objectives pursued by the E.MA programme, Prof. Fischer illustrated how to identify the challenges in the fields of human rights and democratisations and how to prioritise interventions. Security, terrorism, millennium development goals are only some of the several interesting topics addressed and presented to the students for debate.

Dr. Angela Melchiorre,
E.MA Programme Director, introducing Prof. Dr.
Horst Fischer, EIUC President,
to the class 2012/2013
